

# YSM-CNC-26T

## AUTOMATIC FORMING MACHINES

| MODEL                     | YSM-CNC-26T           |
|---------------------------|-----------------------|
| Wire size (wire diameter) | 0.6 ~ 2.5 mm          |
| Width of strip wire       | 30 mm                 |
| Thickness of strip wire   | 0.3 ~ 1.2 mm          |
| Hardness of wire          | 80 (carbon)           |
| Length of wire feeding    | unlimited             |
| Processing speed          | 200 pcs/min           |
| Punching pressure         | 10 tons               |
| Slide power               | 1.5 tons              |
| Slide type                | 37 mm                 |
| Press processing type     | 12 mm                 |
| Cam axis                  | 4.5 HP (3.5 kw)       |
| Feeding axis              | 2.0 HP (1.5 kw)       |
| Press                     | 4.5 HP (3.5 kw)       |
| Coil heart (option)       | 0.5 HP (400 w)        |
| Appearance size           | 2250 x 780 x 1800 m/m |
| Weight                    | 2500 kg               |
